

2023 retail price list & cultural guide

RETAIL CUSTOMERS - We recommend coming to one of our public sale days when no minimums apply and we are staffed with people to answer questions. Alternatively, retail customers can place orders after our last public sale day (May 27)

Orders can be picked up at a prearranged time as long as they meet the following requirements:

\$400 minimum order before tax.

Orders for 38 cell trays, quarts (12 count tray) , and 2" pots (32 count tray) need to be placed in full flats of single species.

Please note that most quarts are generally not ready until about July 15.

A 25% deposit is required to confirm an order.

Please send us your wish list by email using the form on our website. Please include the approximate date you want to pick up the order.

Availability changes daily. Prices subject to change without notice.

wildflowers

SCIENTIFIC	COMMON	POT SIZE / PRICE				FLOWERS		SUN			SIZE			MOISTURE	NOTES

key to letter codes

AS = acidic soils required

B = provides seed, fruit or nectar for **birds**

BI = biennial

CM = consistent moisture means that the soil should never dry out completely

D = dioecious

EF = edible fruit

EW = emergent wetland plant - (see our list of emergent wetland plants)

FC = fall color

GC = groundcover

LB = long bloom period

LH = larval host for butterflies (see our list of larval host plants)

N = plant that provides **nectar** for butterflies and bees

NC = the plants are **not competitive** when combined with other plants - easily out-competed without regular disturbance or thinning of other plants

nearly native = not native to Michigan but found in adjoining states

not a MI genotype = seed not of Michigan origin

O = **opportunistic** native plants colonize aggressively without competition. We reserve the term invasive for non-native species that uncouple the ecological process of the ecosystems they invade.

PP = these plants attract **pollinators** and/or **predatory** (beneficial) insects. (see nativeplants.msu.edu)

RR = readily re-seeds

S = spreads by underground **suckers**

TH = thorny

V = vine

WD = need **well drained** soils
